

SUSTAINABLE SUCCESS

GREEN. offers practical strategies for CO₂-friendly travel

Liga Travel uses GREEN. so that both professional sports clubs and organizations and business travel customers can combine travel with climate protection.

GREEN. TAKING RESPONSIBILITY

CO₂ Reports

- + Using carbon footprint analysis to collect data: flights, rail, hotels, car rental, shipping
- + Preparing data to maximize transparency
- + Automating data transmission
- + Ensuring measurability in line with all global CSR standards

Offsetting projected CO₂ Emissions

- + Offsetting with appropriate certified climate protection projects that contribute to sustainable development (e.g. transferring technology and combating poverty)
- + Certificates for offsetting and sustainability reporting

Information and Education

- + Options and methods to make travel CO₂-neutral, and to avoid or reduce existing CO₂-emissions; e.g. events, training sessions and in-house initiatives

OUR FOCUS

Liga Travel is committed to analyzing processes, establishing data collection systems and consolidating data for reports on CO₂.

OUR PARTNER

think • go climate conscious

atmosfair actively contributes to climate protection. The non-profit organization develops and runs sophisticated climate protection projects that adhere to the Gold Standard and are inspected and certified to UN standards. atmosfair's credibility is underpinned by high standards and science-based calculations.

Liga Travel GmbH
